Dear Sir:

Upon reviewing the above-identified patent, Patentee noted typographical errors which should be corrected.

On Page 2 of the patent (the "Continuation" of references page):

Column 2, in the section captioned "OTHER PUBLICATIONS", in the third entry under that caption (beginning "Westlock, The Precision on Non-Contact Position Feedback"), "on" should be -- of --. This error was originally on the part of the Applicants, See IDS dated September 24, 2004 (filed September 27, 2004), Sheet 1 (PTO Form 1449), Other Documents section, 3<sup>rd</sup> reference, but was corrected by the Examiner's correction on May 23, 2005 (mailed May 26, 2005), last page. It is therefore respectfully submitted this error was not on the part of the Applicants. However, if it is nonetheless considered to be an error on the part of the Applicants, it is hereby authorized that any necessary fees for the requested Certificate of Correction be charged to Deposit Account No. 13-2855, under Order No. 06005/39181A.

In the Specification:

Column 11, line 53, “embodiments” should be -- embodiment --. This error was on the part of the PTO. *See* specification as-filed, at page 22, line 6.

Column 11, line 60, “carried” should be -- carrier --. This error was on the part of the PTO. *See* specification as-filed, at page 22, line 11.

Column 11, line 62, “couple” should be -- coupled --. This error was on the part of the PTO. *See* specification as-filed, at page 22, line 12.

In the Claims:

Claim 7 (Column 16, lines 46-48), “portion having a head including first and second ends asymmetric Y-shaped portion having” should be -- portion extending from the second L-shaped section, the second asymmetric Y-shaped portion having --. This error was on the part of the PTO. *See* Amendment dated July 18, 2006, page 4, Claim 11, lines 15-16, PTO error.

Inasmuch as the errors listed above are all understood to be on the part of the PTO, no fees are necessary in connection with this Request for Certificate of Correction.

The errors now sought to be corrected are inadvertent typographical errors the correction of which does not involve new matter or require reexamination.

Transmitted herewith is a proposed Certificate of Correction effecting such amendment. Patentee respectfully solicits the granting of the requested Certificate of Correction.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 13-2855, under Order No. 06005/39181A.
